Professional Summary

Full-Stack Software Engineer currently Graduated from Per Scholas where I got a hands-on experience developing modern web applications using JavaScript, TypeScript, React, Node.js, Express.js, REST APIs, SQL, MongoDB, Git, and cloud deployment technologies. Brings more than seven years of experience analyzing complex datasets, optimizing workflows, solving operational challenges, and leading business initiatives across financial services and asset recovery. Recognized for leveraging analytical thinking, problem-solving, and user-focused design to build scalable software solutions in collaborative Agile environments.

Technical Skills

Programming Languages: JavaScript, TypeScript
Web Development: HTML5, CSS3, JavaScript, TypeScript, React, Node.js
Cloud & DevOps: Netlify, Render
Databases: NoSQL (MongoDB), Database Design & Optimization
Frameworks & Software Development: API Design, Design Patterns
Testing & Quality Assurance: Unit Testing, Integration Testing, Test Automation, Code Reviews, Code Refactoring, Code Quality Metrics
Version Control & Build Tools: Git, GitHub Actions
Agile Methodologies: Agile Development, Scrum, User Stories, Sprint Planning
Security: Secure Coding Practices, OWASP Top Ten, Encryption
Algorithms & Data Structures: Algorithm Design, Data Structure Implementation, Big-O Notation
Tools & Documentation: IDE, Visual Studio Code, Technical Documentation, API Documentation
Project Management: Project Planning, Time Management, Requirement Analysis
Machine Learning: TensorFlow, PyTorch, Scikit-Learn, Machine Learning Algorithms
AI & Automation Tools: ChatGPT, Microsoft Copilot, Prompt engineering to troubleshoot research, AI-assisted documentation, and workflow support

Education

Per Scholas | Software Engineering Training | Philadelphia, *PA*
October,13 2026

- Accrued 400+ hours of training in Software Engineering as part of a three-month technical and career development program focused on full-stack application development, software engineering principles, cloud deployment, database management, and modern development practices.

- Attended weekly professional development sessions to strengthen personal branding, resume development, interview preparation, professional communication, collaboration, and workplace readiness.
- **Course Focus:** HTML5, CSS3, JavaScript, TypeScript, React, RESTful APIs, Express.js, Node.js, Java, Spring Boot, SQL, NoSQL, Git, GitHub, Agile Methodologies, Software Testing, and Cloud Deployment.

Exam FX/PSI Exams POL School of Finance | Philadelphia, PA (December 2024)

- Finance and Insurance LIC – Life and Health Insurance (Active) PA, VA , NJ

Delaware State University | Dover, Delaware (December 2008)

- Double Major- Biology & Pre-veterinary Medicine

Albany State University | Albany, NY (September 2008)

- Double Major- Biology & Pre-veterinary Medicine

Work Experience

Asset Recovery Agent | Unclaimed Property Specialist| Pennsylvania Treasury (June 2021 – Present)

- Analyzed and validated 500+ financial, legal, and public records to identify eligible asset recovery opportunities, improving claim accuracy and supporting timely case resolution.
- Increased data integrity by cross-referencing information across multiple government and public databases, resolving ownership discrepancies, and ensuring accurate claim documentation.
- Performed quality assurance reviews on 100+ complex cases, identifying record discrepancies and maintaining consistent documentation that supported accurate claim processing.
- Managed a high-volume pipeline of 75+ active cases by prioritizing workflows, tracking claim status, and maintaining accurate documentation to improve operational efficiency.
- Designed and maintained structured data repositories that centralized hundreds of client records and supporting documents, improving data accessibility, confidentiality, and case management.

Founder & Principal Financial Advisor Mygrationn & Associates | VA, NJ, NY, PA (2023 – Present)

- Founded and managed a multi-service financial advisory firm, overseeing business operations, client onboarding, strategic planning, compliance, and workflow optimization to deliver efficient, client-focused services.
- Analyzed financial and client data to develop personalized recommendations across insurance, lending, and financial planning, aligning solutions with clients' goals, risk tolerance, and long-term objectives.
- Leveraged CRM systems and digital financial platforms to manage client relationships, maintain accurate records, streamline operations, and ensure regulatory compliance and data confidentiality.
- Collaborated with lenders, insurance carriers, investment firms, and strategic partners to coordinate complex transactions, resolve operational challenges, and enhance the overall client experience.
- Researched industry trends, financial regulations, and emerging technologies to improve business processes, optimize service delivery, and translate complex financial concepts into clear, actionable guidance for clients.
